> Judge Kilbreth, who was appointed Col-lector of the Port of New York by President Cleveland yesterday, was seen by an "Evening World" reporter

at his country home here this morning While he did not say so in so many words he gave the reporter to infer that in the distribution of patronage in the Custom House Tammany Hall need not

He has also received numerous applications from editors of magazines and others, asking him to mail them his photograph so that they can publish his picture.

"I don't know what there is for me to say about this appointment," he said, in answer to a series of questions.

"Even then, however, I paid little attention to it, as, in fact, I had no knowledge whatever that my appointment as Collector of the Port was contemplated.

"Within the past few days, however, I heard something that made me think a little more of the matter.

"What that something was I cannot very well tell you, nor am I inclined to say to what influence my appointment is due. You must ask Mr. Cleveland himself about that.

"Now as to my plans and as to the manner in which I propose to run the office.

"The fact is, I have no plans. It would be idle for me to say that I have any, one reason being that I have not as yet been officially informed of my appointment.

Slam to make answer to the French demands.

On July 21 M. Pavie, the French Minister at Bangkok, presented the ultimatum to Prince Devawongse, the Slamese Foreign Minister. On July 23 Slam replied, stating that the King was at a loss to understand what the rights of Annam and Cambodle were on the left bank of the Mekong River.

The King expressed his willingness to abandon all the territories over which the existence of tress rights could be proved, and called attention to the fact that five months previously he had proposed to submit all the contested territorial questions to international arbitration.

In the interests of peace, however, the King offered to surrender the territory as far north as the eighteenth degree of livitude, but no further, and proposed that the islands on the Mekong River be used in common by Slam and France. All the other points of the ultimatum were conceded.

"Are you as much against Tammany now as when you were a leader of the County Democracy?" he was asked.

"Hell," he replied, with a grim smile, I'did not join Tammany Hall after the County Democracy went under, I am in the term of it now, and I don't think I will join it."

Relative to the part he had taken in the Anti-Snapper movement and his well-known opposition to Tammany methods, Mr. Kilbreth said:

"I am an admirer of President Clevelland and always have been, ever since the day he first received the nomination for Governor. I have watched him year after year, and the more I saw of him the more I admired him.

While the new Collector admitted that he held views of his own on the silver question, he was not willing to discuss it, for the reason, as he said, that it would not in any way come under the duties of his new office.

As to customs matters, all he would say was that he is not educated sufficiently on the subject to suggest any reforms as yet.

"All I ask," he said, "is to be given a little time. I think I will be able to satisfy the most exacting as to the way the office will be administered. MONMOUTH PARK'S TROUBLE.

Frank Shaw Said to Be Urging the Madison Track in Illinois to Resume.

The Monmouth Park Association is in more trouble. The Eatontown Township Committee, which granted the Club a license, threatens to close the gates \$5,000 is forthcoming. In order that the reader may fully understand the matter it may be necessary to go into a little ancient history. When the laws legalizing racing were passed this Spring the Eatontown Township Committee met and granted the Monmouth Park Association a license without fee. The Law and Order people raised a howl and demanded a repeal of the license. This the Committee at a sub-sequent meeting refused to do, but in order to conciliate the enemies of racng they resolved to charge a license fee of \$5,000. The Monmouth Park people were not present at this latter meet-

were not present at this latter meeting, nor were they officially notified that their presence was desired. Since then the Township Committee has made several demands for the \$5,000, but the Association has ignored them. Fisally, on Wednesday night, the Committee notified the Club that they must either "put up or shut up." This brought the Association to its senses, and after a hurried consultation Manager Croft was sent to Chief Justice Beasley for a writ of certiorari, restraining the Eatontown Township Committee from revoking the license issued to Monmouth Park. The writ was granted, and last evening it was served on the Committee, which had met to take final action. The writ is returnable Aug. 14, and until that time the Association may race undisturbed.

The latest from Chicago is to the effect that work has been begun on the Roby (ind.) track with the view of again throwing open the gates to compete with Ed Corrigan's Hawthorne track.
